June 6, 2019

Dear Parents/Guardians:

All students prior to entering 7th grade must receive a Tdap Immunization booster per Montana Department of Public Health; the school must have proof of your child's (7th grade) Tdap booster on file. Please bring a copy to the Middle School Office; the school cannot call to have records faxed to us due to privacy laws. The copy must be provided by the Parents/Guardians to the school by the first day of school. **If no proof of a Tdap booster is provided before the start of the next school year state law will not allow unimmunized children to attend school.** You can get immunizations at your Physician's office, the Missoula or Ravalli County Health Dept.

Children, who are at least 11 years old, need one Tdap (tetanus/diphtheria/pertussis) booster – If it has been at least 5 years since their last DTaP.

NOTE: Tetanus containing vaccines should not be given sooner than 5 years apart unless there has been an injury. After this initial booster at age 11, every ten years is still the recommended time frame for tetanus boosters.

Please provide the school with proof of this immunization as soon as possible.

Affidavit of Exemption forms can be picked up at the school.

If you have any questions please feel free to contact me.

Thank you,

Dana Huseby LPN
